

Toddle - The IB Superpower for Candidate Schools

Discover how 150+ candidate schools have partnered with Toddle to kick start their IB journey!

At Toddle, we absolutely love working with candidate schools. Over the past couple of years, we have partnered with more than 150 of them and have developed a deep understanding of their needs. In our experience, leadership teams in candidate schools have three big areas of focus:

Building curriculum from scratch

Helping school team develop an understanding of the IB

Navigating the IB's authorisation process

“

"Toddle is not a platform, but a partner for schools new to the IB. It's like a safety net for our teachers."

Ezra Alexander, PYP Coordinator,
North Jakarta Intercultural School

As leadership team members in a candidate school, you need a system built for this. Continue reading to discover how Toddle helps you with these focus areas.

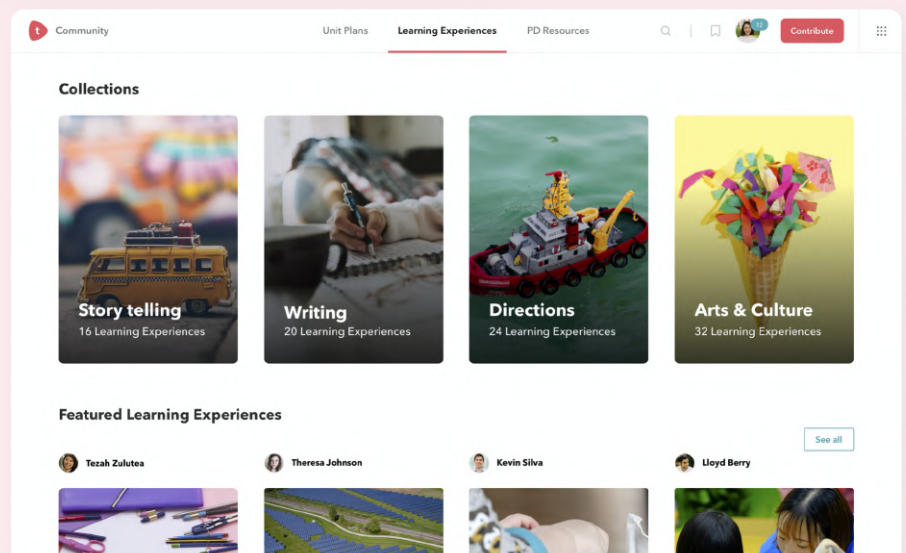

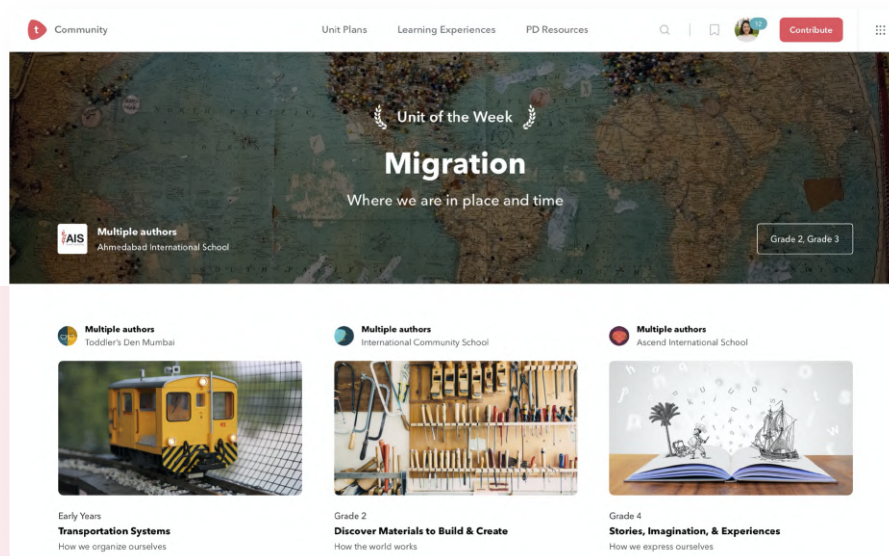

Focus Area 1: Building your curriculum from scratch

In a candidate school, building a

balanced curriculum will be one of the first things that you need to do. This has 2 key aspects - finalising your scope & sequence and building your units. Toddle helps you structure both.

Finalising your scope & sequence

Scope & sequence is the foundation of your curriculum and needs a lot of attention. The first step to building the

curriculum is finalising your scope and sequence. The IB provides well defined scope & sequence documents for some subjects, however, for subjects such as Science and Social Studies the IB has issued general guidelines. Schools need to adapt the scope & sequence to their context and, for science and social studies, build it from scratch.

Toddle has a large built-in library of scope & sequences which you can directly use or easily customise to meet your needs. You can also create a new scope & sequence from scratch. Your Toddle Buddy (experienced IB educator and your goto person for all

things Toddle) will work very closely with you and guide you on this.

Access hundreds of IB specific resources on Toddle community

The second aspect to building the curriculum is creating your units of inquiry. Toddle Community gives your teachers access to hundreds of units and learning experiences created by experienced IB educators. Your teachers can use these as inspirations and create their units.

Creating units

Toddle has a guided planning interface that allows teachers to plan the IB way in a simple step- by- step manner. With

“

It takes a village to raise a child. The Toddle community is a place to connect head, heart and hands and be inspired by other IB educators. In sharing my ideas in the Toddle Community, I hope to bring spark and joy to learners around the world.

Gerry De Fazio, Director and Senior Consultant

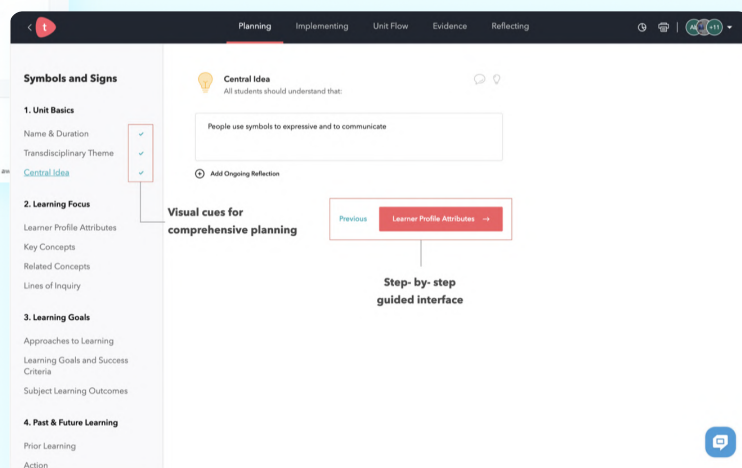

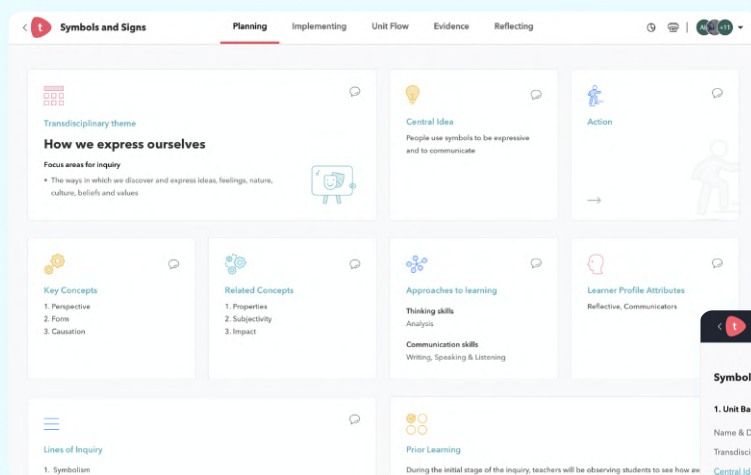

Notosh, Canada

an intuitive interface, teachers find it extremely easy to create beautiful units. Planning on Toddle also saves teachers a ton of time. We have practically

eliminated the need to copy paste and type - replaced with simple clicking and selecting - allowing teachers to focus on what's important - teaching!

My small IB team and I have been amazed with Toddle – it empowers us to plan together and become more effective IB practitioners!

Danijela John, Homeroom Teacher

Matija Gibec International School, Zagreb, Croatia

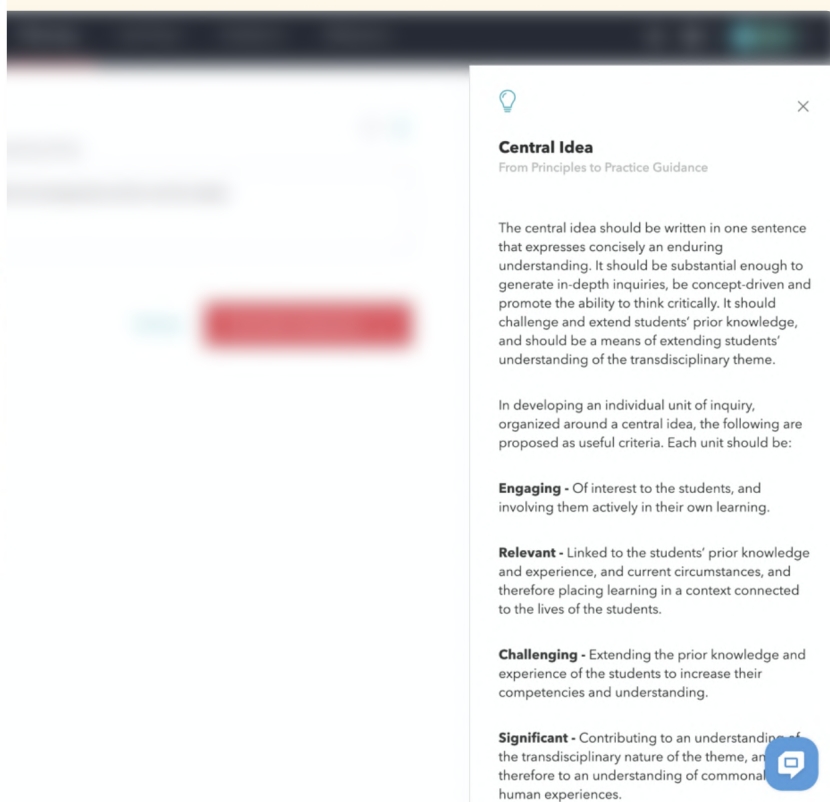

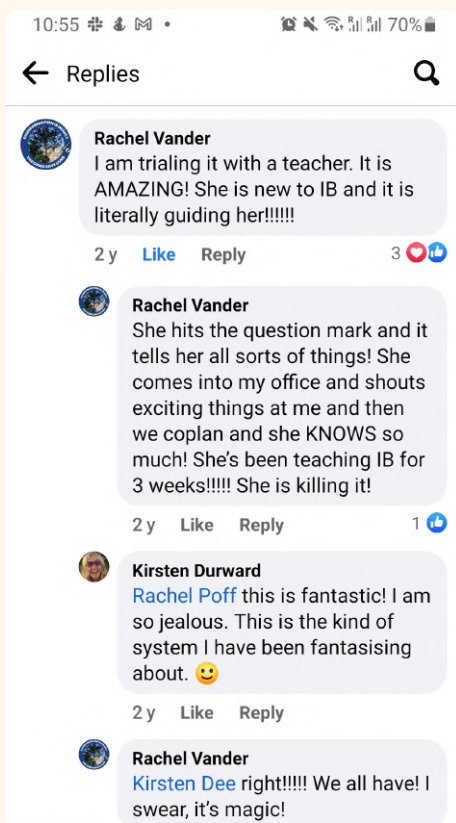

Focus Area 2:

Developing an understanding of the IB in your team

In order to implement the IB well, the school team needs to understand the IB well. Toddle provides teachers with many opportunities to develop a better understanding of the IB.

Embedded professional development

Almost all screens on Toddle have the “bulb💡” icon. The bulb icon gives teachers access to IB help text exactly when they need it where they need it. We call it “PD on the go”. The language for these is very simple so that even teachers new to the IB can understand easily.

Toddle Learn - blogs, resources and talks

You can access world class professional development conducted by experienced IB educators from Toddle Learn (learn.toddleapp.com). These can easily be put together as a coherent

professional development plan for your school team. Your Toddle Buddy will help you plan this as well.

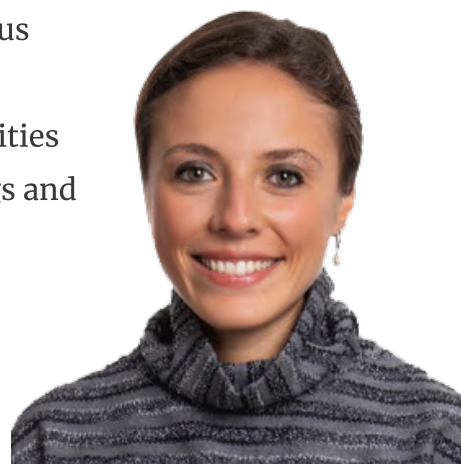

For example, check out the visual guide to the IB. Teachers new to the IB absolutely love this.

“

Toddle has been such a great learning platform with the authentic and meaningful experiences shared by various educators all over the IB world. I have received many thought-provoking personal developmental opportunities offered to the community through talks, personal blogs and webinars- they were really amazing!

Melike Aybar, School Psychologist,

Bilkent Laboratory and International School

Focus Area 3: Navigating through the IB's authorisation process

Candidacy culminates with IB's authorisation - probably the single most important goal for a candidate school. Managing the authorisation

- probably the single most important goal for a candidate school. Managing the authorisation process needs a lot of effort from the school team. In our experience, schools spend up to 6 months preparing for this. With Toddle, it can be done in a few weeks saving you a

Standard A: Philosophy ▼

The school's educational beliefs and values reflect IB philosophy.

Practices and Requirements

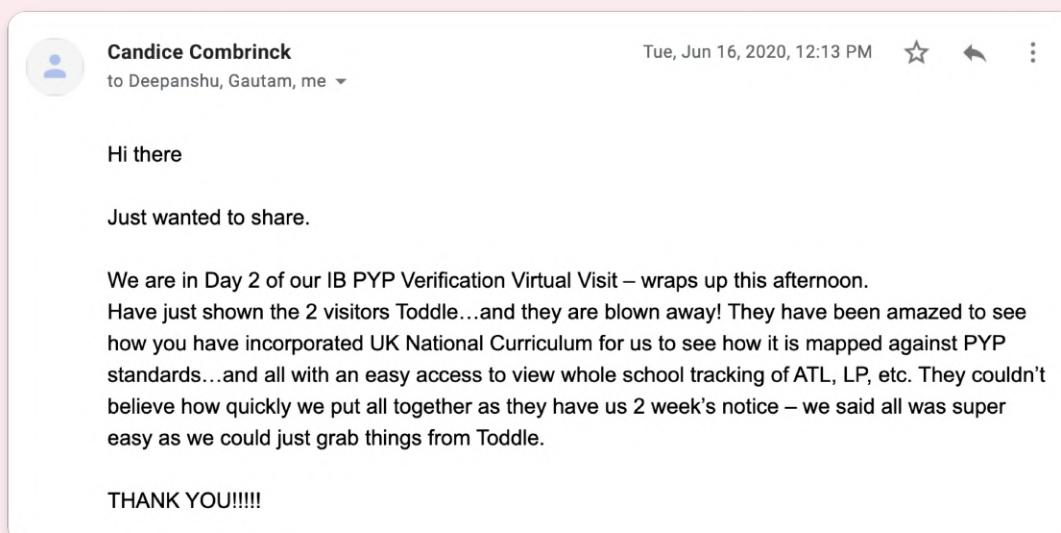

Practices / Requirements	Practice in place & IB Observation	Self Assessment	# Actions	# Evidences
A.1 (practice) The school's published statements as mission and philosophy aligned with those of the IB.	Yes Recommendation	Developing	1	
A.2 (practice) The governing body, administrative and pedagogical leadership and staff demonstrate understanding of IB philosophy.	Yes Commendation	Demonstrating	0	—
A.3 (practice) The school community demonstrates an understanding of, and commitment to, the programme(s).	Yes Commendation	Excelling	1	
A.3a (requirement) The values of the PYP as indicated in the curriculum documents have an explicit impact on decision-making and functioning of the school.	No MTBA	Emerging	2	
A.3b (requirement) The school as a community of learners is committed to a collaborative approach to curriculum development.	Yes Commendation	Excelling	0	—

you a ton of time.

Toddle has a module built to help you streamline your IB authorisation process. There is a dashboard for all the standards and practices, teachers

can easily tag evidence, you can give the visiting team access on a single click, etc. In the last 2 years, more than 150 schools have used Toddle's Evaluation and Authorisation module to manage their IB visits!

“

We're so grateful to have used Toddle for authorization – our teachers were completely stress-free and we had quick access to all our evidence, at a click of a button!

Candice Combrinck, Head of Primary,
Dubai International Academy, UAE

About Toddle

Toddle is the preferred teaching partner of 30,000+ IB educators and 1,000+ IB schools around the world. Developed by experienced IB educators, Toddle streamlines planning, portfolios, assessments, reports, evaluation and authorisation, family communication, and online learning - all from one intuitive interface. Through Toddle Community, educators from around the world can collaborate with each other for sharing best practices and teaching-learning resources.

Request a demo today to understand how you can empower student voice and choice to demonstrate and share learning, engage in authentic assessment, and get deep insights on student progress across IB elements and curriculum goals.
